
 You are warmly invited to attend the International Congress of Mathematicians in Madrid in August 2006, and to discuss the most recent developments in Mathematics.

 Learn about new trends in all areas of Mathematics in the friendly and cosmopolitan atmosphere of Madrid, a European city privileged for its cultural and historical heritage.

 Attend a satellite conference in cities like Barcelona, Santiago de Compostela, Sevilla, or even in European countries nearby such as France, Italy or Portugal.

1. Logic and Foundations
2. Algebra
3. Number Theory
4. Algebraic and Complex Geometry
5. Geometry
6. Topology
7. Lie Groups and Lie Algebras
8. Analysis
9. Operator Algebras and Functional Analysis
10. Ordinary Differential Equations and Dynamical Systems
11. Partial Differential Equations
12. Mathematical Physics
13. Probability and Statistics
14. Combinatorics
15. Mathematical Aspects of Computer Science
16. Numerical Analysis and Scientific Computing
17. Control Theory and Optimization
18. Applications of Mathematics in the Sciences
19. Mathematics Education and Popularization of Mathematics
20. History of Mathematics
